

SECURE YOUR ACCOUNTS WITH DHL ESECURE

With eSecure you decide who is allowed to use your DHL Express accounts. Secure your import accounts in just a few simple clicks. This way you will always have an overview of who uses your DHL Express import accounts.

Best of all, it's totally free!

THE BENEFITS OF ESECURE

ONE SINGLE PLATFORM

Manage your users plus enjoy the dynamic and personalized shipping experience all in one place – MyDHL+ !

ACCOUNT USAGE VISIBILITY

Approval or rejection review based on past usage of your DHL Express account.

TAKE CONTROL

Manage who can use your DHL Express account by whitelisting their email addresses.

EASY APPROVAL PROCESS

Approve or reject of new usage requests easily via MyDHL+ or through email.

HOW DOES IT WORK?

Getting started with eSecure

- Decide who in your company will need access to eSecure and should act as your Account Administrator(s).
- The Account Administrator can use eSecure to control which individuals can use your DHL account number, based on their email addresses.
- Your account is then secured with only the authorized users able to use it.

eSecure in action

- Authorized users log into MyDHL+. Their email addresses are automatically checked against eSecure.
- When a new user wants to book a shipment, the Account Administrator receives a request for authorization.
- As soon as the Account Administrator approves the request, the new user will be able to start shipping.
